ASSESSMENTS: READING PASSAGES TO QUICKLY FIND A STUDENT'S "READING SWEET SPOT" TO "MEET THEM WHERE THEY ARE" -- AND THEN TO PULL THEM UP SUCCESSFULLY FROM THERE										
				<i>In the AOCR learning-to-read-experience, educators find the point in our curriculum where a student knows ~98-99 out of every 100 words. At this point, a student will start with confidence, display no internal shame, and be perfectly to have the educator "pull them up" the reading complexity ladder, GENTLY but steadily, by very simply just reading the passages in progressive order from the individualized starting point, with the educator pre-teaching all new vocabulary words -- presented at the beginning of each lesson in HOT PINK.</i>
